AFTER THE MEETING, FOR THE NEXT MEETING

Your remarks, suggestions, comments ...

Very nice people and discussions. Budget, reporting and discussion take too much time. Also difficult to understand (difficult word)

I am not so familiar with the project so many things were new for me. Therefore many things were difficult for me. I think that the budget and planning were very hard to follow and understand and it felt many times meaningless to listen. The budget should be coordinator's job and we others could do something else; more workshop lines, more social activities because this had been more useful and meaningful. I want to do the meeting more social and meaningful not so bureaucratic.

I wish the days would be more practical for those who are new in the project; we had a lot of information about budget etc.; but not that much practical, workshops etc

I think the atmosphere was warm and friendly as usual. It has developed in a good way
Meeting organization was perfect. Let's keep like that further

I would like to spend less time with bureaucracy, documentation and more on the practical implementation.

Good atmosphere

I would have liked to see all the partners being active and participating in all over initiative
Excellent organization and management

Thank you!!! Good
